Virus Cleaner

CPU COOLER

Optimize CPU usage and stop overheating apps

In any case, even if you decide not to expand your coverage, you'll still have a free high-quality antivirus backed by one of the most important computer security companies in the world. And the answer depends on how you use your phone but in the majority of cases it's affirmative: do you connect to public WiFi networks? The thing is that AVG has brought to the mobile scope the different functions that we've been seeing for years on Windows PCs or Mac, offering us updated protection for our mobile devices. Even if you don't usually do any of those things (we don't believe you), you still should be interested in downloading an app of the likes of AVG AntiVirus, basically because it goes way beyond the usual classic antimalware protection. Protect your phone with the help of one of the most reliable security companies. Greater stability. New search of apps to be locked with App Lock. Main features and functions This app integrates a full pack of tools that offers us both security features for our device as well as improvements for our operating system's performance, turning out to be a great alternative for software of the likes of CCleaner or Clean Master: Antimalware protection: it analyzes apps, games, and files searching for malicious contents. Get warned about suspicious text messages, filter and block unwanted calls and messages SMS Blocker isn't available for Android >v4.4 devices Wipe contacts, text messages, photos, browser history, calendar, format SD card, and restore mobile device to factory settingsAVG AntiVirus PRO Android Security is available in 30 languages.For the latest mobile security updates, Join our Google+ community: AVG/posts Join our Facebook community: Follow us on Twitter: installing/updating this app, you agree that your use of it is governed by these terms: ♦, Google Maps™ and Android™ are trademarks of Google, Inc., registered in the United States and in other countries ✓ Web Shield fixes — Does your Web Shield keep getting disabled? It also offers protection against websites that could be a threat and a WiFi connection inspector that assesses the strength of passwords, encryption, and that prevents ARP Spoofing and Captive Portal actions. Possibly The opinion of over 100 million users that have decided to install the APK on their smartphone or tablet is a sign of guarantee. It's an application that, apart from fighting any infection due to different kinds of malicious software, also offers us other tools, such as the possibility to optimize the performance of your smartphone or tablet, or antitheft protection. by Rexdl · November 12, 2021Current Version: 6.44.3File size: 39 MB | 37 MBMemorize: www.ReXdl.com Get AVG AntiVirus PRO Android™ Security now for premium, full featured protection from viruses, malware, spyware & online exploitation in real-time.with just an easy 1-time payment and join over 100,000,000 people who already installed AVG's antivirus mobile security apps!With AVG AntiVirus PRO Android Security you can: Scan apps, settings, files, media, calls & text messages (SMS) in real-time Enable finding/locating your lost or stolen phone via Google Maps™ Lock & wipe your phone to protect your privacy Kill tasks that can slow down your phone Browse the web safely and securely Monitor battery, storage and data package usage Filter & block unwanted calls & text messages (SMS)In addition, when installing the premium app, you also get: App Lock - password protect app access App Backup - backup apps from your device to your SD card Camera Trap - discreetly emails you a photo of anyone who enters 3 wrong passwords when trying to unlock your phone Device Lock - locks your phone whenever the SIM card is replacedAVG AntiVirus PRO Android Security also: Defends against malicious apps, viruses, malware and spyware Identifies unsecure device settings and advises on how to fix them Helps ensure contacts, bookmarks & text messages are safe Checks media files for malicious software & security threats Guards you from phishing attacksApp features: Protection: Scan downloaded apps & files and remove malicious content Search, shop & use social networks with peace of mind knowing your identity & personal data are protected from phishing & malware Scan websites for harmful threats. This Android version is a free edition that offers us full or pro features for a limited 30-day period that can be expanded by means of paying for a subscription via in-app purchases. It also offers us options to monitor our data plan and optimize our internal and SD card storage space. That's the question that many users ask themselves and that many others should also think about. Performance optimization: it includes tools to supervise battery consumption and saving, as well as to remove tasks and processes that slow down our phone. Do you download apps from unknown sources? It's definitely a great security and privacy solution for your Android, that hardly occupies any space, weighing only 15 MB, and that works fluidly without wasting any of your precious resources. Fixes Web Shield bugs. What's new in the latest version? Privacy: it also offers different options to protect the user's privacy, blocking access to the device's different contents, such as video and photo galleries, multimedia files, applications, messages, and calls. Do you access websites that may jeopardize your data? Thus, we can locate our device through Google Maps, block it and establish an on-screen message so that the locator can find the user, make it beep even if it's in silent mode, or delete all the contents of our SD card and internal storage space. Antitheft: it comes along with functions to avoid the loss or theft of our device, protecting all the information stored on the latter. The best Android antivirus? If a suspicious URL is detected, you will be redirected to a "Safe Page" (applicable only to Android's default browser and Chrome)Performance: Kill tasks & processes that can slow down or freeze up your device Monitor battery consumption, set battery level notifications & enable power saving Monitor traffic - keep track of your 3G/4G mobile data plan usage by getting notifications when you are near to reaching your monthly data plan limit Optimize internal & SD card storage space by either uninstalling apps and games or by moving them between the internal device memory and SD cardAnti-Theft & Phone Location: Use AVG's remote management console or text messages (SMS) to: Locate your lost or stolen phone and get help finding it via Google Maps™ Lock your phone and set a lock screen message to help the locator find you Make your phone ring (shout) even if it is on silent mode Wipe your phone and SD card content Camera Trap: discreetly emails you a photo of anyone who enters 3 wrong passwords when trying to unlock your phone SIM Lock: automatically locks your phone whenever someone replaces your SIM cardPrivacy: App Lock: lock apps to protect your privacy and safety or lock your device settings to secure its configuration App Backup: backup apps from your device to your SD card so you can restore them whenever necessary Call and Message Blocker: protect yourself against spammers, hackers and scammers. Download APKName AVG AntiVirus FREE for Android Security 2017Package com.antivirusVersion 6.7.1Size 22.81 MBInstalls 100,000,000+ downloadsDeveloped By AVG Mobile Do I need an antivirus on my Android? Now we know why! We'll help you fix this by explaining how to exclude our app from your phone's battery-saving features ✓ New App Lock search — Looking for an app to lock? Just tap the new search icon in App Lock to easily search through all your installed apps ✓ Better stability — Just the usual stability improvements to keep your app working like it should
